3 v US rep

Washington D.C.

May 3rd 1877.

Lewis S. Hayden Esq.

Sir;

At your request I will state that the impression on a copper plunget from the reverse die for a twenty dollar gold piece, showing eagle and star, presented to you by me, is the only impression ever struck from said die. The die was engraved by myself about the year 1861, as a pattern, and not having been accepted, it was, by direction of the Director of the U.S. Mint, destroyed by me personally after this impression had been taken.

Very respectfully.

A. Pagucci
